

# MUUG Meeting

*The Manitoba UNIX User Group*

**Date: Tuesday, September 14th, 2010**

**Time: 7:30pm**

**Topic: A Trio of RTFM, Part Deux!**

**% Screen/tmux  
awk diff**

Once again this month, we're offering you a trio of RTFM presentations! To start, Gilbert Detillieux will be introducing the **diff** command. Next up, Michael Doob will follow up on Adam's RTFM in June on the **awk** command, showing you how to use it for more substantial scripting. Finally, Sean Cody will present the **screen** and **tmux** commands.

**Location: IBM Offices, 400 Ellice Ave.  
(between Edmonton and Kennedy St.)**

When you arrive, you will have to sign in at the reception desk, and then wait for someone to take you (in groups) to the meeting room. Please try to arrive by about 7:15pm, so the meeting can start promptly at 7:30pm. Don't be late, or you may not get in. (But don't come too early either, since security may not be there to let you in before 7:15 or so.) *Non-members are welcome, but may be required to show photo ID at the security desk.*

Limited parking is available for free on the street, either on Ellice Ave. or on some of the intersecting streets. Indoor parking is also available nearby, at Portage Place, for \$5.00 for the evening. Bicycle parking is available in a bike rack under video surveillance located behind the building on Webb Place.
